# TRISTAN GABL

TRGABL@STUDENT.ETHZ.CH

## Education

- **ETH Zürich** — Master of Science ETH Computational Science and Engineering
  2025 — … , CH
- **ETH Zürich** — Bachelor of Science ETH Computational Science and Engineering
  2021 — 2025 , CH

  Comprehensive interdisciplinary program combining applied mathematics, computer science, and engineering. Focused on scientific computing, data analysis, and numerical modeling.

## Experience

- **Research Assistant**, Computer Vision and Geometry Group ETH Zürich
  2026 , CH

  Collecting and pre-processing camera and LiDAR data for a Computer Vision research project concerning human collaboration in a kitchen and cooking environment.

- **Module lead for Perception**, AMZ Racing
  2025 — 2026 , CH

  Leading and overseeing the next generation of perception engineers, requiring management of multiple workpackages.

- **Core Member for Sensor Fusion, Perception**, AMZ Racing
  2024 — 2025 , CH

  An intense and experience-rich year as a core member of the driverless department at one of the most successful Formula Student teams.

- **Teaching Assistant**, ETH Zürich
  2023 — 2026 , CH

  I have an everlasting passion for being a teaching assistant for Computer Science 1 & 2.

- **Paramedic at Red Cross**, Civil-Service
  2020 — 2021 , AT

  Gained experience in taking responsibility in critical situations.

Honesty in teamwork is most important to me. I am passionate about **robot learning**, **hardware involved projects**, **autonomous systems** and **numerical methods**. Physical exercise and a work-life balance feel essential for great productivity. I dedicate my free time to being in nature and practising Tricking/Gymnastics.

**Email:** trgabl@student.ethz.ch
**Phone:** +41 76 575 64 57
**GitHub:** TristanGabl

**Notable projects:**
– *AMZ bird's eye view fusion (private)*
– *CuSSS: Cuda SSS variants*
– *Action recognition from contact maps*
– *Cloth folding with a diffusion policy*
– *3D scene graphs (Bachelor thesis)*

**Languages:** English • German
**Technologies:** C • C++ • Python • PyTorch • ROS2 • Cuda • Julia • MATLAB • JavaScript • Git • Linux • Final Cut Pro
**Interests:** Robot learning • Autonomous systems • Hardware involved projects
